Prevent. Promote. Protect.

SHELBY COUNTY HUMAN RESOURCES DIRECTORY

FORWARD

This project is a product of the collaboration between agencies within the Myrtue Medical Center's Department of Public Health, the Shelby County Emergency Preparedness and Planning Coalition and the Shelby County Resource Group to identify and organize our human resource lists. The listings are categorized based on what an individual may need. Some agencies, with multiple programs, are listed under several headings. This document is intended to serve as a "point and shoot" guide for health and human service agencies, practitioners, officers and others who may receive request for special needs.

The Shelby County Resource book will be posted on Myrtue Medical Center's website. Additions and corrections to the information are encouraged. If you experience difficulty in contacting one of the agencies listed or it does not fall into the appropriate category, please contact Myrtue Medical Center's Department of Public Health at 712-755-4422.
